

Celebration of 100th project in Armenia

We have reached the 100th project milestone in our Grant Assistance for Grassroots Human Security Projects (GGP) initiative.

Since the inception of the grant agreement in 1999, we have successfully completed and signed a total of 100 projects, with the most recent signing ceremony taking place on August 17, 2023.

The inaugural project focused on the construction of a drinking water supply system in Martuni, Gegharkunik, and marked the beginning of our fruitful collaboration with local partners. Over the years, we have undertaken a diverse range of projects across various sectors, effectively addressing challenges surrounding communities.

As we celebrate this momentous occasion, it is our privilege to announce that the 100th project aims to elevate medical standards in Lori and neighboring regions by installing a gastro-colonoscopy equipment. This initiative underscores our unwavering dedication to the well-being and quality of life of the people of Armenia.

We remain committed to continuously contributing to the enhancement of the Armenian community and are grateful for the trust and support extended to us throughout the journey.
